GIVE BACK

I have been telling you for a year now that the GIVE BACK plans that Joe Namath advertises are not to your advantage. Now I will tell you the opposite! I now have an insurance plan that IS A GREAT GIVE BACK!!! Its for 2022! So the GIVE BACK is a go! There is no requirements other than having Part A and B Medicare. It is a major carrier and the standard benefits are not drastically changed by the GIVE BACK of \$125 per month. There is still many \$0 copay benefits. The Maximum out of Pocket is \$1000.

This plan is not for Medi-medi as their Part B is already paid for by MediCal.

News —TENATIVE rates for 2022!

Medigap Plans will have a deductible of \$217 for the YEAR. New to Medicare Part B will be \$158.50 per month or higher depending on your income. This was just announced but is TENATIVE as of this printing.

Summer of 2021

I went twice this past summer to Sandpoint Idaho and Kalispell Montana. I have relatives and friends in both locations. It is to say the least BEAUTIFUL. I went mainly to get out of the desert heat. I can't take it anymore when it reaches 100+. On the way back in St. George Utah (I drove) my sister and I had a visitor in our room!! Yes that is a snake!! It was in the room with us for 4 hours before it made itself known. I almost stepped on the thing!!! Needless to say we changed rooms immediately!!!
